The MIN-XH2 series is the latest smart residential battery-ready inverter, allowing customers to make a low initial investment. The battery-ready function makes it easily extendable into a storage system in the future without extra devices (backup function not included) or retrofit costs. It also supports 16A DC current input and 2x DC oversizing.

Building upon this success, Growatt expanded its product portfolio by introducing the MOD 3-10KTL3-XH, MID 11-30KTL3-XH and WIT 50-100K-HU/AU inverters, catering to larger-scale systems. Complementing the Battery-Ready inverters are Growatt's battery solutions, among which the APX HV Battery, unveiled last year, stands out as a highlight.
