At Guernsey Energy, we are excited to play our part and we are working hard to bring new products, such as renewable gas, and energy performance products and services to the island as we recognise ...

In Guernsey, we currently rely on fossil-fuel based systems of energy production and consumption and operate a thermal power station. However, it is recognised that as part of the response to climate change, there is a need to transition to an energy mix with limited, if not zero carbon emissions. This is often referred to as the energy transition.

Guernsey has a long history in the performance of projects related to power and energy. Our understanding of and passion for the systems and facilities related to power transmission and distribution makes us a unique fit to assist this industry.
