Green Scene Energy PLC took part in a Government- and UN-backed roadshow to highlight the advantages of solar energy in off-grid communities. This has brought our solar home systems to hundreds more homes, freeing Ethiopians from travelling to buy expensive, smokey fuel. The Ministry of Water, Irrigation and Energy (MoWIE) roadshow took place ...

Finding Her Passion "Born and raised in Addis Ababa, the capital of Ethiopia, founder and CEO of Green Scene Energy PLC, Rekik Bekele, grew up with the privileges of a big city's infrastructure. Though she regularly experienced power outages, it never occurred to her that other families navigated the darkness of the night without the ... Energizing Voices -- ...

Besides firewood, the main energy sources used by households in Ethiopia are kerosene and dry-cell batteries. Spending on kerosene - a poor quality, dirty and harmful combustible fuel, over 15 million off-grid households (80% of the population) spend over \$8 per month on kerosene and mobile-phone charging, traveling an average distance of 4km every two or three days.
