

This new solution is especially beneficial for factories and commercial buildings seeking reliable and uninterrupted energy supply. HighJoule is focused on integrating rooftop solar solutions ...

Cui et al. find that open trade policy is a key factor for achieving low-cost solar photovoltaic supply chains. This conclusion holds even for regions, like Europe, that seek to localize solar ...

In 2025, the cost of solar energy installation in Vietnam varies widely by capacity and installation conditions, from homes to large enterprises. The installation cost of home solar systems in ...

Following the crackdown on Chinese solar PV imports, US manufacturers have now turned their attention to exporters from India, Laos, and Indonesia. They have filed a fresh antidumping ...

In Vietnam, a region with high solar irradiation, such as Ho Chi Minh, is more likely to invest in PV-powered EV charging stations than other areas with lower solar irradiation, such as Hanoi ...

The Ministry of Industry and Trade proposes that households installing self-produced and self-consumed rooftop solar power and electricity storage systems will receive financial support of ...

Vietnamese solar company SolarBK is playing a central role in the project, providing both the photovoltaic hardware and digital monitoring solutions. The balcony systems will use IREX ...
