

Material system NCM Nominal voltage (V) 60 Nominal capacity (Ah) 15.6 Battery size (mm) 357 x 120 x 75 Discharge rate (V) 67.2 Charging time 6 ~ 10 hours Charging current (A) ≤ 3

System materials NCM Nominal voltage (V) 60 Nominal capacity (Ah) 12 Battery size (mm) 320 x 135 x 70 Discharge rate (V) 67.2 Charging time 6 ~ 10 hours Charging current (A) ≤ 5

System materials NCM Nominal voltage (V) 60 Nominal capacity (Ah) 15.6 Battery size (mm) 357 x 120 x 75 Discharge rate (V) 67.2 Charging time 6 ~ 10 hours Charging current (A) ≤ 3

Material system NCM Rated voltage (V) 72 Rated capacity (Ah) 160 Battery size (mm) 420 x 350 x 290 Discharge rate (V) 84.0 Charging time 6 ~ 10 hours Charging current (A) ≤ 30

System materials NCM Nominal voltage (V) 72 Nominal capacity (Ah) 160 Battery size (mm) 420 x 350 x 290 Discharge rate (V) 84.0 Charging time 6 ~ 10 hours Charging current (A) ≤ 30

Shenzhen Haoyang New Energy Co., Ltd. is a professional lithium-ion battery manufacturer, design, intelligent manufacturing and trading company. We have high quality battery products, which are widely used in various fields, such as power tools, civil power, agriculture, etc.
