SolarEdge Home is the perfect solution for your home solar system. With our DC optimized technology, you harvest more energy from your solar panels and store more energy in your battery to power appliances, EVs, and provide critical backup during outages. Watch the video to see why homeowners love SolarEdge Home.

The electricity generated from solar power accounts in average for 5% in the European Union and only 0.4% in Croatia. To reach the EU average, Croatia would need to add an additional 700 MW to its currently installed 100 MW of solar plant capacity. In 2020, the Croatian government introduced a financing model for renewable resources.

Solar panels: Capture energy from the sun. Inverter(s): Converts solar energy into energy that your home can use. Racking equipment: Mounts solar panels to your roof. Monitoring equipment: Tracks the amount of energy your solar panels generate. Solar battery (optional): Stores excess electricity for use later on.
