Erneuerbare Energien (EE) haben in den letzten 15 Jahren einen Boom erlebt, und inzwischen haben die EE die konventionellen &#246;lbetriebenen Generatoren &#252;berholt und haben in 2018 einen Anteil von 56% an der Energieerzeugung. Bedingt durch das Gesetz zur F&#246;rderung der EE sind Firmen im EE-Sektor steuerbefreit, und f&#252;r Solaranlagen, die bis zu 50 ...

Urban Energy prioritizes projects designed and constructed by a diverse team working in their own NYC communities towards a sustainable future. Learn More. NY'S Community Solar Program. Property owners and investors can participate in NY's Community Solar initiative to help promote clean-energy in New York City and beyond.

The total primary energy offer in Honduras is around 4.62 Mtoe or 53,730.6 GWh. The main source of primary energy is petroleum (53%) followed by combustible renewable and waste (44%), and coal (3%). The residential energy consumption is around 47% of the national consumption, of which 86% are provided by biomass, primarily firewood.

The Intergovernmental Panel on Climate Change (IPCC) recently concluded that we need to limit global warming to 1.5°C to avoid catastrophic consequences for people and our environment. To do so, the world needs to follow up peak emissions in 2025 with a halving of emissions every decade until 2050, starting with the first halving by 2030.
