

Honeywell lithium battery

Honeywell (NASDAQ: HON) today announced that it has acquired from Nexceris its Li-ion Tamer business, a leading off-gas detection solution for lithium-ion (li-ion) batteries that detects ...

The acquisition strengthens Honeywell's fire life safety offerings within its Building Automation segment and builds on a five-year partnership with Nexceris focused on lithium-ion battery safety.

Nexceris, a leader in clean energy innovation, has sold its Li-ion Tamer's off-gas monitoring solution to Honeywell (NASDAQ: HON). Li-ion Tamer's is the industry's premier technology for ...

(RTTNews) - Nexceris has sold its Li-ion Tamer's off-gas monitoring solution to Honeywell (HON), integrating the premier lithium-ion battery safety technology into Honeywell's Building ...

Honeywell, announced that it has acquired from Nexceris its Li-ion Tamer business, a leading off-gas detection solution for lithium-ion (li-ion) batteries that detects thermal runaway events. The ...

Nexceris has sold its Li-ion Tamer's off-gas monitoring solution to Honeywell. Li-ion Tamer is the industry's premier technology for preventing thermal runaway events in lithium-ion (Li-ion) ...

Honeywell today announced that it has acquired from Nexceris its Li-ion Tamer business, a leading off-gas detection solution for lithium-ion (li-ion) batteries that detects thermal runaway ...

Honeywell has made a strategic acquisition of Li-ion Tamer, a leading off-gas detection solution for lithium-ion batteries, from Nexceris. This move is set to enhance Honeywell's fire life safety ...

CHARLOTTE, N.C.--Honeywell has announced the acquisition from Nexceris its Li-ion Tamer business, an off-gas detection solution for lithium-ion (li-ion) batteries that detects thermal ...

Nexceris sells Li-ion Tamer's lithium-ion battery monitoring products to Honeywell LEWIS CENTER, Ohio, July 15, 2025 /PRNewswire/ -- Nexceris, a leader in clean energy innovation, ...

By using early warning technology to detect battery off-gassing, which typically precedes thermal runaway, Li-ion Tamer provides facilities with vital time to intervene before a battery fire starts.

Pune: Honeywell announced that it has acquired from Nexceris its Li-ion Tamer business, a leading off-gas detection solution for lithium-ion (li-ion) batteries that detects thermal runaway ...

Honeywell has acquired Li-ion Tamer's from Nexceris to enhance battery fire safety and expand its fire

Honeywell lithium battery

detection portfolio. Honeywell announced the acquisition of the Li-ion Tamer's business ...

Optimize lithium-ion battery safety with Honeywell's Li-ion Tamer acquisition. Enhance fire detection and prevention in building automation with trusted early warning technology. Ideal for ...

Honeywell acquires Li-ion Tamer to enhance fire safety in li-ion battery systems, expanding its Building Automation and detection technologies portfolio. Honeywell has finalized the strategic ...

LEWIS CENTER, Ohio, July 15, 2025 /PRNewswire/ -- Nexceris, a leader in clean energy innovation, has sold its Li-ion Tamer's off-gas monitoring solution to Honeywell (NASDAQ: ...

Honeywell's Battery Safety Gambit: A Strategic Move in a \$400 Billion Market In a decisive step to establish its leadership in crucial sectors of the renewable energy transition, Honeywell ...

The acquisition enhances Honeywell's portfolio of best-in-class fire life safety technologies within its Building Automation segment and emerged from a partnership with Nexceris over the past ...

The acquisition positions Honeywell to capture growth in battery safety systems as lithium-ion battery adoption accelerates across multiple sectors. With the battery market expected to ...

With the global lithium-ion battery market expected to exceed \$400 billion by 2030 and growing at an impressive annual rate of over 30%, this acquisition serves both defensive and offensive ...
