

Bosnia and Herzegovina is forced to buy electricity that exported the electricity, while experts and official government documents warn of potential energy sector collapse. In the first five months ...

This premier battery conference kicks off with a high-level plenary featuring opening ceremonies, keynote speeches, and executive dialogues. Along with the Leaders Closed-door Roundtable, these sessions will bring together ...

Carbon capture and storage (CCS) is no longer just a future concept but is becoming a practical solution helping companies to plan cleaner energy projects and meet climate and sustainability ...

Now, researchers report the discovery of a cheap catalyst that adds hydrogen atoms to oil-like molecules that are liquid at ambient temperature and pressure. That means hydrogen could be ...

Japan's Sumitomo has signed a memorandum of understanding (MoU) with the UK, committing to inject £7.5bn (\$10bn) into infrastructure and renewable energy projects in the country by 2035. ...

A team of scientists from Slovenia, Serbia, and Bosnia and Herzegovina is working on a hydrogen project based on seawater electrolysis. Dalibor Karacic, Nejc Hodnik, Igor Pasti, and Sanjin ...

By combining experimental insights with computational advances, carbon-based hydrogen storage platforms are expected to play a pivotal role in the next generation of energy storage ...

The international envoy has resolved a longstanding debt and unlocked funding for new election technologies - only to trigger attacks from all sides in divided Bosnia and Herzegovina. ...

GSE Solutions has developed a hydrogen fuel cell generation and storage plant simulation model to support NuScale Power's hydrogen simulator project. The initiative is part of the broader ...
