

Japan's Sumitomo has signed a memorandum of understanding (MoU) with the UK, committing to inject £7.5bn (\$10bn) into infrastructure and renewable energy projects in the country by 2035. ...

It applies a breakthrough energy storage method, storing surplus green power as liquid nitrogen via dynamic air-separation units -- a novel load flexibility solution. Green ammonia, derived ...

This paper proposes a two-layer, multi-step optimal sizing framework for electric-hydrogen energy storage to address multi-scale energy storage requirements. The first step, the optimal sizing ...

Selecting the right hydrogen storage method involves a careful consideration of various factors, including application requirements, infrastructure availability, cost, and safety. Compressed ...

Africa-Press - Sierra-Leone. Europa, one of Jupiter's largest moons, produces insufficient oxygen to sustain life. Recent data from NASA's Juno spacecraft, which orbits Jupiter, suggests that if ...

Sierra Leona will start issuing International Renewable Energy Certificates (I-RECs) following the approval of a national credit issuer... Please Register or Sign in to view this content. Quantum ...

This premier battery conference kicks off with a high-level plenary featuring opening ceremonies, keynote speeches, and executive dialogues. Along with the Leaders Closed-door Roundtable, these sessions will bring together ...

Updated 1st July 2025 - The Red Sands Battery Energy Storage System (BESS), set to be Africa's largest of its kind, has officially reached commercial close. Developed by Globeleq, which is 30% owned by Norfund, in partnership with ...

Approval for Victoria's first commercial green hydrogen hub, targeted at industrial gas users, with operations and production company appointed By Margaret Ambrose on July 26, 2025 Energy ...

The publication provides a brief market snapshot and outlook for the rest of the year. As solar has become a major pillar of the EU energy transition, it's important to continuously feel the pulse ...

Download logo His Excellency President Dr. Julius Maada Bio has arrived safely in Monrovia at the invitation of His Excellency President Joseph Nyuma Boakai to participate in celebrations ...

Now, researchers report the discovery of a cheap catalyst that adds hydrogen atoms to oil-like molecules that are liquid at ambient temperature and pressure. That means hydrogen could be ...

One of California's oldest rail operators is pioneering a "landfill to fleet" system, converting waste into hydrogen to power its locomotives. This innovative approach aims to create a self-reliant, ...

Market development trend of energy storage industry New energy storage system technology and application
Electric and hybrid technology and application in vehicles Technology updates of charging and infrastructure
...

Kenya extends Seven Forks solar tender Kenya Energy storage, Renewable energy Issue 530 - 10 July 2025
Karpower commissions Africa's first LNG-to-power plant Mozambique, Guinea, Gabon, Senegal, Côte
d'Ivoire ...

Hydrogen energy storage sierra leone
