While volumes are low they can be co-processed with NiMH battery. NiCd battery can be co-processed in smelters with NiMH battery to provide FerroNickel as well as cadmium- based compounds. A new smelter is needed for this process. Technology for recycling scrap nickel-cadmium - NiCd battery involves sorting, pre-treating, smelting and casting.

by TMR. ECONILI Battery New Energy will be opening its new Integrated Critical Metals Recovery Plant in Perak on May 26 and 27, 2024, alongside the Malaysia International Lithium-Ion Battery Recycling Summit..

India econili battery new energy sdn bhd

The grand opening of EcoNiLi's facility is in line with Malaysia's dedication to the green waste management agenda.

The opportunity is high because Western recyclers can collect treatment fees of \$1800-2300/ton for processing LFP scrap from their upstream. EcoNiLi can pay these recyclers to take the scrap and process them in its operations. Recyclers are being offered large amounts of LFP to process in Europe but there is no enough capacity to process it there.
