The Cost of Solar Panels in Indonesia. Across the world, the cost of solar panels is declining, and Indonesia is no different. The price of solar modules dropped from USD 4.12 per watt in 2008 to USD 0.17 per watt in 2020. This translates to lower costs for solar energy, which are around USD 0.04 per kWh.

Is the price of solar panels falling? The price of solar panels has declined substantially over the last decade as the industry has matured and reached production at the largest global scale. Since 2010, residential solar panel prices have fallen by roughly 50% while US solar deployment has grown by over 2,000%.
