The Government of Equatorial Guinea, through the Ministry of Mines, Industry and Energy, is conducting in Annobon the Project of Solar Energy as a Renewable Energy Source, which will allow island residents to enjoy clean energy. A group of national technicians is being trained to manage the plan.

There are also potential areas for job growth. The Islands could tap into renewable energy, such as solar or potentially tidal power, generating jobs while fostering greater self-sufficiency. With good internet, small numbers of remote workers or digital entrepreneurs could bring outside income to the Islands.
