Who is lundsby renewable solutions?

As one of Denmark's major biogas developers, Lundsby Renewable Solutions converts several tons of biomass to green and CO₂-neutral gas. We do this in the most efficient way by designing and building turnkey biogas plants. We cooperate with different suppliers of upgrading plants for the supply of biomethane for the natural gas grid.

Why should you choose lundsby renewable solutions?

Plants that also contribute to sustainable use of organic waste and a better aquatic environment. As one of Denmark's major biogas developers, Lundsby Renewable Solutions converts several tons of biomass to green and CO₂-neutral gas. We do this in the most efficient way by designing and building turnkey biogas plants.

Why did lundsby renewable solutions change its name?

In 2022, the name changed into Lundsby Renewable Solutions, one of the reasons being the intention of exploiting the company's international potential to the maximum. Lundsby has more than 25 years of experience with designing and building turnkey biogas plants.

Does lundsby provide a biogas plant?

Lundsby always delivers a thoroughly tested and commissioned biogas plant, as well as the associated proper training of the operating staff. We offer ongoing support, until the operating manager feels confident regarding both the technical and biological part of the biogas plant.

Why should you choose lundsby?

Lundsby provides a reliable plant and also helps you to commission the plant well and safely. The good cooperation with our customers and partners ensures that we keep our know-how updated, so we can always develop and optimise our solutions. To your benefit and to the benefit of your economy and the green transition.

How can lundsby help you in the green transition?

If you wish to play an active role in the green transition by using biomass from agriculture, households, industry, etc., we help you make all ends meet and turn the idea into reality. Lundsby has more than 25 years of experience with developing and providing efficient biogas plants.

In this episode of Den Grønne Elevator, Niels Pedersen, CEO of Lundsby Renewable Solutions, and Michael Løve, CEO of OK, join Ane Cortzen to discuss the transformative developments in the energy sector. Niels Pedersen outlines Lundsby's mission to convert waste and biomass into CO₂-neutral energy through state-of-the-art biogas plants.
