Manx Solar Electrical are the Isle of Man's exclusive Stiebel Eltron service partners. We are also a Mitsubishi ASHP service partner and Dimplex approved and accredited installers. Our engineers install high performance JA Solar / ...

The Isle of Man produces more solar than you would think, even on an overcast day, we are still reaping the rewards of free electricity! A small solar array of 8 panels can produce 3630kwhrs of electricity and this equates to an annual cost saving of £1034.55.

Air Source Heat Pumps A highly recommended heat pump manufacturer and popular choice with our customers is Mitsubishi. For a typical 3 or 4 bedroom property in the Isle of Man we would install a heat pump out of their EcoDan range, an 11.2kw Ashp complete with a 200L cylinder would cost approximately £12,500, this includes installing and decommissioning of existing ...

Manx Solar Electrical are the Isle of Man's leading company when it comes to renewable energy, catering for private clients and businesses alike. We pride ourselves on delivering the highest quality of work, as testified by many of our customers. We are the one stop shop for installations of single components, like solar panels or heat pumps and also carry out complete renewable ...

"The solar farm would generate enough power to meet more than 7% of the Isle of Man's current electricity demand and support the Government's aim for electricity on the Island to be 100% green by 2030." The project represents an investment of around £30m across the 40-year anticipated life of the project, with no public investment.

Plans have been submitted for the Isle of Man's first solar energy farm. The proposed 84-acre development in the south of the island would generate enough electricity to power nearly 8,000 homes ...
