

Isle of Man energy management in smart grid

How many smart electricity meters will be installed in the Isle of Man?

A four-year project to roll out about 50,000 smart electricity meters across the Isle of Man has begun. About 8,000 pre-payment key meters will be replaced during the first phase of the £18.2m programme, Manx Utilities said. The upgrading of the infrastructure at all other domestic and commercial properties will begin in early 2023.

Will Manx Utilities install smart metering?

Manx Utilities will shortly begin installing meters for its much anticipated Island-wide smart metering system. Smart meters will form part of a smarter energy grid allowing Manx Utilities to be more precise about energy production and supply, enabling a reduction in waste and better support low carbon technologies for transport and heating.

How can a smart meter help me manage my energy consumption?

Smart meters can help you monitor and control your energy consumption through the use of our Smarter Living app. This will help provide a better understanding of your electricity usage and support you in making changes to your consumption behaviour. We can upgrade your meter

Should in-home displays be included in Manx Utilities' 'Smarter Living' project?

Manx Utilities said while in-home displays had initially been considered "an integral part" of the project, they would now be offered as a paid-for optional extra. Customers would instead be able to use a new free Smarter Living app to monitor energy consumption.

Upgrade to a new energy efficient boiler from £34 per month. Spread the cost over five years interest-free with nine year warranty, Smart Home Hive Mini Thermostat+ and two Hive radiator valves from Isle of Man Energy.

Isle of Man Energy make it simple for you to transfer your energy when you move home. ... Smart controls. Hybrid boiler & heat pump. Energy advice. Back. Energy advice. Energy saving tips. Free energy review. Switch to gas. Gas tariffs. Tell us you're moving .

Newport, U.K. --- (METERING) --- November 16, 2011 - The Isle of Wight "EcoIsland" project has signed up new partners Toshiba, Silver Spring Networks and Cable & Wireless Worldwide to work on the island's smart grid project.
