

Israel Electric Corporation ran a smart meter pilot back in 2017 with installations in neighbourhoods in Netanya, Jerusalem and Beersheva. Since November 2021, Israel Electric Corporation also has installed smart meters when connecting new builds to the grid. Israel Electric Corporation is state owned with approximately 2.9 million customers.

The challenges involved in implementing smart grid in Israel are partially unique to Israel but most of them are internationally common. These are the most important: 1. Regulators consent - Setting agreed upon policy among regulators regarding goals and means. Coordination among all direct regulators of
