

The global market for Lithium-ion Batteries (LIBs) Electrolyte Additives is experiencing robust growth, driven by the burgeoning demand for electric vehicles (EVs), energy storage systems ...

Simone Prato, Country Lead - Italy at Enertis Applus+, emphasized the importance of the company's accumulated experience: "This project represents another piece in the growth of ...

The electrochemical energy storage (EES) market is experiencing robust growth, driven by the increasing demand for renewable energy integration, grid modernization, and the electrification ...

The global energy storage evaporator market is experiencing robust growth, driven by the increasing adoption of electric vehicles (EVs) and hybrid electric vehicles (HEVs). The rising ...

The energy storage connector market is experiencing robust growth, driven by the increasing demand for renewable energy sources and the expanding adoption of electric vehicles (EVs). ...

UK-based power producer ContourGlobal, backed by US private equity firm KKR (NYSE:KKR), is stepping up its push into the energy storage sector, unveiling the acquisition of about 1.6 GW ...

Italy is currently among Europe's hottest battery storage markets thanks to its MACSE auction scheme, an established capacity market and the first attempts to go merchant by project ...

A panel titled "Interactive Deep Dive Italy: Choosing the best path for BESS ROI in Italy - MACSE, capacity market, or merchant strategies?" at the Battery Business & Development ...

From ancient Roman thermal baths to the development of the first geothermal power plant in the world, Italy has always been a forerunner in the geothermal sector. Research in the field is ...

Data centers (or Data Processing Centers - CEDs) have acquired strategic importance in both the private and public sectors, given the current digital transition characterized by Artificial ...

The energy storage battery market is experiencing robust growth, driven by the increasing demand for renewable energy integration, the proliferation of electric vehicles (EVs), and the ...

Energy storage technologies are being prioritised in order to improve system resilience and facilitate Italy's energy transition objectives, ranging from lithium-ion batteries to hybrid solar ...

Italy energy storage research and development

Enertis Applus+ has been present in Italy since 2013, a market where it has provided consulting, engineering, quality control (QAQC), and technical inspection services for more than 50 BESS ...

The lithium metal market size was valued at USD 15.3 billion in 2024 and is projected to reach USD 79.3 billion by the end of 2034, growing at a CAGR of 18 % during the forecast period ...

The global market for Energy Storage Systems (ESS) in microgrids is experiencing robust growth, projected to reach a significant size driven by increasing demand for reliable and resilient ...

The continued focus on sustainability and energy efficiency is also expected to boost demand in the long term, primarily within the renewable energy sector. Therefore, strategic investments in ...

The integration of smart grid technologies and energy storage solutions presents significant opportunities for growth within the charge controller system market. The development of sophisticated monitoring and control systems further ...

The energy storage battery cell market is experiencing robust growth, driven by the increasing demand for renewable energy integration, electric vehicles (EVs), and grid-scale energy ...

Israel-based solar and agri-food tech company N2OFF Inc (NASDAQ:NITO) has completed a USD-1.2-million (EUR 1.04m) investment to support the development of 196 MWp/784 MWh of ...

The global anode material market for lithium-ion energy storage battery cells is experiencing robust growth, driven by the burgeoning electric vehicle (EV) sector and the increasing ...

Italy energy storage research and development
