

Explore the leading Green Energy Conferences in Europe 2026, with top events in Germany, France, and Italy. Discover key dates, locations, and focus areas in clean energy innovation.

As the renewable energy market continues to evolve, Italy finds itself on the brink of a significant transformation, driven by Biorig's innovative biomethane projects. With an ambitious plan to ...

Enertis Applus+, a global engineering consultancy firm with extended expertise in the renewable energy and storage sectors, acted as an independent technical advisor in closing the BESS ...

Detailed info and reviews on 60 top Renewable Energy companies and startups in Italy in 2025. Get the latest updates on their products, jobs, funding, investors, founders and more.

Join us in Rome on July 10, 2025, for Solarplaza Summit Italy: Solar & Storage: with its focus on high-level dialogue and actionable outcomes, the summit reaffirms Italy's position as a ...

Energy storage technologies are being prioritised in order to improve system resilience and facilitate Italy's energy transition objectives, ranging from lithium-ion batteries to hybrid solar ...

The first semester closed with record numbers: in Italy, 1,000 people were connected almost two million solar installations (1,93 million) for a total power of 38,5 GW Photovoltaic production ...

The projects will deploy Jinko ESS's G2 5MWh liquid-cooled containerized systems in October 2025 and in March 2026 respectively, providing frequency regulation and renewable energy ...

The battery projects, once fully developed, will position ContourGlobal for the first Italian auction, scheduled for September, in which the country will buy storage capacity to enhance use of ...

Enertis Applus+ has been present in Italy since 2013, a market where it has provided consulting, engineering, quality control (QAQC), and technical inspection services for more than 50 BESS ...

Italy's Ministry of Environment and Energy Security has announced it received nearly 1,500 expressions of interest (EoIs) under the country's FERX decree, a new mechanism to support ...

Envision Energy and FERA Australia have signed an agreement to collaborate on the delivery of large-scale hybrid renewable energy projects across Australia's national electricity market ...

Alphabet Inc's (NASDAQ:GOOGL) search engine business Google has struck its first commercial

Italy renewable energy storage

long-duration energy storage (LDES) deal through an equity investment in and a global ...

The CO2 Battery, developed by Italy-based Energy Dome, is capable of storing clean energy for durations between 8 and 24 hours -- significantly longer than the 4-hour window typical of ...

The refinancing supports Sonnedix's goal of expanding its multi-technology portfolio, potentially including more diverse renewable energy sources like wind and energy storage. The financial ...

ContourGlobal has acquired battery energy storage systems in Italy with a combined power capacity of around 1.6 gigawatt and storage durations of up to eight hours, the energy ...

As renewable energy production is inherently variable and weather-dependent, energy storage solutions are vital to ensuring grid reliability, stability, and consistent power availability.
