ISO/IEC 17025 LAB ACCREDITED BY A2LA. ANSI/NCSL-Z540-1 AND ISO 10012-1 COMPLIANT Test Equipment Made Easy. JM Test Systems is dedicated to delivering the highest quality of electrical safety, test equipment, calibration, tool repair, test benches, and trailers.

OverviewTechnologyHistoryAutomotivePower toolsElectric bikesMobile powerSee alsoJohnson Matthey Battery Systems is independent of cell suppliers, allowing the company to deploy a range of cell chemistry for its automotive products. Currently, it works mainly with Lithium Iron Phosphate and Lithium NCM (Nickel Cobalt Manganese) chemistries. It is also working on a project to develop a high energy density Transition metal oxide/Silicon alloy battery for PHEV (Plug-in Hybrid Electric Vehicle) applications.

Johnson Matthey Battery Systems (JM Battery Systems) is a leading supplier of batteries for electric and hybrid vehicles, processing over 70 million cells a year. Part of the Johnson Matthey group, the organisation also manufactures batteries ...

JM Test Systems is fully insured and NAIL for PET accredited to ASTM/ANSI standards. You will receive total documentation test reports on all equipment along with certified testing stamps. We can test electrical safety equipment onsite and take care of minor repairs and also clean equipment onsite.

The long-duration battery system, largest at a Defense Dept. site, will provide backup power at the energy-intensive U.S. Marine Corps base with 70,000 military and civilian personnel on a 125,000-acre site. ... JM Eagle 5200 West Century Boulevard Los Angeles, CA 90045

Johnson Matthey Battery Systems, part of the Johnson Matthey group and formerly called Axion, designs and manufactures advanced lithium-ion battery systems for electric vehicles and processes over 70 million cells per year. [1] Headquartered in Dundee, Scotland and with operations in Poland and sales offices in Coventry, England, [2] Johnson Matthey Battery ...

Thank you, JM Test for your quality services. I retired from a public utility company, but I found JM to be most accommodating to our needs at the utility. Since my retirement, I have joined my family business and continue to use many of the same services. As a small electric contractor, we often need recourses that can be found at JM Test.

World-class technology and solutions are at the heart of our business. Our advanced battery management systems (BMS) provide robust electronic protection, guaranteeing flawless use of the application.. The battery management system is a basic component of a battery pack with multiple cells. It monitors the battery status by measuring and controlling key operating ...

Batterie-Systeme Mit Energie voraus, zur Elektrifizierung entgegen. Wir sind ein führender Hersteller von fortschrittlichen Batterie-Systemen und seit über 25 Jahren am Markt präsent. Wir haben uns auf wiederaufladbare Lithium-Ionen-Batterien spezialisiert und bieten eine breite Palette von Systemen mit unterschiedlicher Leistung und Kapazität an. Unsere Entwicklungs- ...

Built-to-print plus. Built-to-print plus (BtP+) is an additional support for our team in the project, consisting of designing selected battery elements (e.g., cell connectors) and providing substantive support in the design performed by the customer (e.g., changes in design improving serial production - design for manufacturing).

The site will solely use locally generated renewable energy and JM is working with the City of Vaasa to develop a sustainable heat recovery solution, which feeds the local heating system network.
