Should Kazakhstan adopt an energy security strategy?

Global trend of tightening carbon regulation presents yet another impetus for broader modernization and systemic reforms of energy sector in Kazakhstan. Kazakhstan should articulate and adopt an official Energy Security Strategy document, guided by these general observations.

Is Kazakhstan a kerosene importer?

Traditionally a net importer of kerosene, Kazakhstan has moved toward self-sufficiency since refinery modernization: domestic production satisfied over 85% of demand in 2022 versus less than 60% in 2016.

Is the Kazakhstan-China pipeline a good option for Kazakh oil exports?

The Kazakhstan-China Pipeline (KCP) was main non-Russian route for Kazakh oil exports in 2022. - KCP remains substantially underutilized, as it tends to yield relatively unattractive netbacks given fixed China border price at discount to an international benchmark and provides access to one market (and buyer).

Can Kazakhstan achieve its INDC target by 2030?

Kazakhstan's officially reported GHG emissions totaled 340.8 MMt CO₂e in 2021, down 7% from 367.7 MMt CO₂e in 2015. To achieve Kazakhstan's INDC (unconditional) emissions target of 324.4 MMt CO₂e by 2030, this positive downward trend would have to continue and accelerate slightly; this is certainly possible if:

Is Kazakh ready to transition to market-based refined product prices?

Kazakh authorities remain officially committed to a gradual transition to market-based refined product prices, in keeping with the Eurasian Economic Union (EAEU) goal of launching a common market in oil and refined products in 2025 (e.g. raising the ceiling on gasoline and diesel prices).

Will Kazakhstan achieve its INDC conditional emissions target by 2030?

Given its current trajectory, Kazakhstan may not achieve its INDC conditional emissions target by 2030; national GHG emissions may even drift upwards in early 2020s with further economic recovery and higher energy consumption; a more concerted effort is needed to reverse this.

ASTANA, Kazakhstan, Dec. 2, 2024 /PRNewswire/ -- Envision Energy, a leading global green technology company, has taken a major step in strengthening Kazakhstan's green energy transition by signing ...

The Elbow Creek Energy Storage project is an integrated lithium-ion (li-ion) battery system that provides 2 MW of electric output, charged with renewable power generated by the Elbow Creek Wind Farm, located in West Texas. The battery system utilizes zero-emission wind generation to charge the batteries, which then discharge in ways that enhance the electric grid stability

Every month, NRG will highlight news about federal activities of importance to energy markets. This month

we discuss decisions that could increase use of energy storage and create more grid stability and security.

On October 27, an NRG-STORAGE workshop took place in Prague. Here, the majority of all project partners came together for the first time since the Covid-19 crisis. Accordingly, the workshop was a special milestone in the NRG-STORAGE project. You ...

Tank Storage Optimal Storage Solutions, discover our state-of-the-art tank storage facilities, designed for safety, efficiency, and environmental responsibility. AMANAT C-POIL LLP operates a tank storage facility in Kazakhstan through a leasing agreement with a leading storage tank operator in the region. Our tank farms, both above ground and underground, provide efficient ...

The project will consist of about 200 wind turbines totalling 1 GW of installed capacity, coupled with a very large battery storage system (500 MW-1 GWh) provided by Saft, Total Eren said in a ...

Mona Sam, Antonio Caggiano, Liliya Dubyey, Jean-Luc Dauvergne, Eddie Koenders, Thermo-physical and mechanical investigation of cementitious composites enhanced with microencapsulated phase change materials for thermal energy storage, Construction and Building Materials, 10.1016/j.nbuildmat.2022.127585

The legislation of Kazakhstan lacks the concept of "energy storage system", as well as the concept of "energy storage device", which prevents the regulation of the use of ...

Tank Storage Optimal Storage Solutions, discover our state-of-the-art tank storage facilities, designed for safety, efficiency, and environmental responsibility. Kama Logistics LLP operates a tank storage facility in Kazakhstan through a leasing agreement with a leading storage tank operator in the region. Our tank farms, both above ground and underground, provide efficient ...

Battery Storage. Battery storage is essential to help us all to achieve net zero by creating an electricity system that is clean, affordable and secure. ... NRG UK Group Ltd. Unit 17 Sanders Lodge Industrial Estate Rushden, Northamptonshire NN10 6BQ. sales@nrg.ltd 01933 272100.

We offer energy storage solutions such as batteries and energy management systems to enhance grid stability, maximize self-consumption, and enable off-grid applications. Our storage solutions are scalable and adaptable to meet varying energy demands and project objectives, providing flexibility and resilience to solar farm installations.

NRG-STORAGE present at WORKSHOP - SUSTAINABLE MATERIALS FOR ENERGY STORAGE SOLUTIONS. During 23 - 25 FEBRUARY 2022, in San Sebastian (Gipuzkoa) - Spain, it was developed the "SUSTAINABLE MATERIALS FOR ENERGY STORAGE SOLUTIONS" workshop. It was an hybrid event (on-site and virtual) in where many partners of ...
