Does TransAlta own RNW?

Under the Arrangement, TransAlta acquired all of the outstanding common shares of RNW (each, a "RNW Share") not already owned, directly or indirectly, by TransAlta and certain of its affiliates, resulting in RNW becoming a wholly owned subsidiary of TransAlta.

Who is TransAlta Renewables Inc?

About TransAlta Renewables Inc. TransAlta Renewables Inc. is among the largest of any publicly traded renewable independent power producers (IPP) in Canada.

How have renewables improved energy access in Kenya?

Renewable rollouts have substantially improved energy access. In 2013, around 28% of Kenyans had access to electricity. By 2020, this had risen to over 71%. This was achieved as the population grew by over seven million over the same period, while the rate of urbanisation continued to gather pace.

Is Transalta a good company?

Today, TransAlta is one of Canada's largest producers of wind power and Alberta's largest producer of hydro-electric power. For over 111 years, TransAlta has been a responsible operator and a proud community member where its employees work and live.

How has Kenya been able to generate energy?

Kenya has been able to ramp up energy generation at every scale, from utility scale wind and solar farms, to rural microgrids. The range of technologies and business models mean that there is an energy solution to match every need.

How will TransAlta's new strategy support future growth?

The combination of the two companies will be underpinned by a single strategy that provides greater clarity to investors and will support future growth, - said Mr. John Kousinioris, President and Chief Executive Officer of TransAlta.
