Residential Solar Permit Reporting Program - SB 379 The Energy Commission's reporting hub for California cities and counties to annually provide data about online, ...

A unit of EDP Renewables (EDPR), part of Portuguese utility group EDP Energias de Portugal SA (ELI:EDP), will supply power from an on-site distributed solar farm to California Water Service ...

The California Solar & Storage Association (CALSSA) is the state's largest clean energy business group with over 700 member companies representing an array of businesses that manufacture, design, install, finance ...

California has introduced a total of 25,000MW of new energy means to its grid since 2019, a majority being solar and battery storage. These efforts align with Newsom's plan to add ...

Transparent solar windows that capture ultraviolet and infrared light are now available in the US, enabling buildings to generate clean energy while maintaining aesthetic appeal.

These adverse state policy impacts exacerbated financing shifts, triggering plummeting demand and an 80% decrease in rooftop solar installation volume. The California Solar & Storage Association reports that the fallout ...

Through the first five record-setting solar and battery months of 2025, 11.5% of California's potential solar generation was curtailed to maintain grid balance. That's down from 13% over ...

SACRAMENTO - Governor Gavin Newsom today announced California achieved an historic milestone - the state was powered by two-thirds clean energy in 2023, the latest year for which data is available. California is the largest economy in ...

Morocco partners with Nareva & GE Vernova on a green hydrogen project. Laayoune power plant is to be converted, paving the way for clean energy future. Find out more details about the project in this news coverage.

EDPR NA Distributed Generation, the distributed generation business of EDP Renewables North America, and California Water Service have signed a 20-year PPA for a 2.35-MW DC onsite solar array at Cal Water's Northeast Bakersfield ...

For Californians seeking clean energy solutions and relief from rising electricity costs, the Self-Generation Incentive Program (SGIP) offers a compelling opportunity. Since its inception, SGIP has provided significant ...
