MIT alumni-founded OnePower is building minigrids to power villages across the small, mountainous country. OnePower is building networks of minigrids powered by solar energy to bring electricity to rural regions of Lesotho. OnePower is currently building minigrids across Lesotho.

How can Lesotho improve electricity access?

Increase electricity access to households, schools and enterprises in Lesotho. -Provide reliable and affordable electricity through renewable energy sources to Basotho. -Provide training on entrepreneurship and productive uses of electricity for vulnerable women and underserved rural communities.

What is onepower doing in Lesotho?

OnePower is currently building minigrids across Lesotho. Matt Orosz's mission for the last 20 years can be explained with a single picture: a satellite image of the world at night, with major cities blazing with light and large swaths of land shrouded in darkness. The image reminds Orosz SM '03, SM '06, PhD '12 of what he's trying to change.

What is a mini-grid project in Lesotho?

The project will also promote private sector participation in the provision of electricity to underserved rural communities through deployment of mini-grids. Objectives -Increase electricity access to industrial zones of Lesotho. -Increase electricity access to households, schools and enterprises in Lesotho.

Will edfi electrifi invest in Lesotho mini-grid portfolio SPV?

Brussels, 6 January 2022: EDFI Electrifi, REPP, and 1PWR have reached financial close on Africa's second largest project-financed mini-grid transaction. The equity-and-debt investment into the project vehicle, Sotho Minigrid Portfolio SPV, will fund the construction of a portfolio of 11 mini-grids in Lesotho with a total capacity of 1.8MW.
