How many batteries can a Libbi system store?

The libbi system is modular by design. With this, you can create a home battery storage system between 5kWh (1 battery), up to 20kWh (4 batteries). How do I work out what system size I need to optimise my solar? The size of the libbi system best suited for your home will be worked out by one of our certified installation partners.

Is Libbi a smart home battery storage system?

libbi isn't just a home battery storage system, it's eco smart. This means it makes intelligent decisions about when it provides and stores electricity based on how much energy you use, how much you generate with your solar and the electricity tariff you use. Libbi is smart...libbi seamlessly connects to your existing myenergi devices.

How do Libbi batteries work?

As an installer, the Libbi gets a big thumbs up. Modular batteries allow much easier installations than huge 10kWh batteries. The instructions are clear and do not require a degree to decipher. The system builds from the ground up, so battery number 1 is installed, then the subsequent battery, and then the inverter on-top.

Does Libbi work with solar PV?

A home battery storage system to suit your needs. libbi works as both an AC and DC coupled battery system with solar PV. Connect PV without the need for a separate inverter or retrofit to any existing AC system. Connect your new solar array directly to your battery, with no additional inverter needed!

Does Libbi drain when an EV is plugged in?

You have ultimate control over how the stored energy is used, by prioritising devices within the myenergi app, libbi won't drain when an EV is plugged in unless you tell it to. libbi is a modular battery system that adapts to your needs. We created libbi to store your electricity, to use it when you need it most.

How many kWh can Libbi store?

libbi is modular by design. Each module can store up to 5kWh of electricity, so combining 4 of them together would provide up to 20kWh of storage.

The libbi is the new hybrid inverter and battery bundle produced by myenergi. This is the 5kW hybrid inverter and allows for seamless integration between all myenergi devices. Up to 4 batteries can be added to the libbi in parallel, meaning up to 20kWh of energy storage is available. Furthermore, this product has the added option of emergency ...
