

Lithionics battery llc Mozambique

What is lithionics battery's NeverDie™; battery management system?

Lithionics Battery's NeverDie™; Battery Management System is a proprietary design featuring protective safety features, as well as status and state-of-charge monitoring. The NeverDie™; Battery Management System is standard on all Lithionics Battery™; systems to ensure your lithium batteries are operated within their rated specifications.

How do I connect my lithionics battery?

Lithionics Battery™; recommends the use of our UL listed Plug & Play connector systems for quick and safe installation of our battery systems. The Plug & Play system features our parallel combiner box for parallel connections, or a series wire harness for series connections.

What chemistry does a lithium battery use?

All the Time! Lithionics Battery™; uses an organic Lithium-ion Iron Phosphate chemistry in all of our lithium battery models. This naturally safe chemistry is paired with an internal shut down curtain technology inside each lithium cell, preventing any flame or explosion from thermal runaway events.

Starting Point. 2008 to 2009: Research and Development for Cell Safety Systems. 2009: Lithionics Battery™; becomes the first USA company to pass UN DOT 38.3 Safety Standards. 2010: Lithionics Battery™; moves into a 5,000 Square Foot Prototype Build Facility. 2011: Added 5,000 Square Feet.
