Who is the CEO of the long duration energy storage Council?

As CEO of the Long Duration Energy Storage Council, an executive-led global nonprofit organization with more than 60 members operating in 20 countries, Julia leads strategic planning and market and policy development activities to rapidly deploy and scale long duration energy storage to support the clean energy transition worldwide.

What is long duration energy storage?

Long duration energy storage is defined as a technology storing energy in various forms including chemical, thermal, mechanical, or electrochemical. These resources dispatch energy or heat for extended periods of time ranging from 8 hours, to days, weeks, or seasons. Long duration energy storage is critical for decarbonizing the energy sectors.

Around 65% of approximately 12.5 billion tonnes of greenhouse gases (GHGs) emitted through industrial processes globally in 2021 could have been cut, according to "Driving to net zero industry through long duration storage", the new study produced by management consulting firm Roland Berger for the Long Duration Energy Storage Council (LDES ...
