Texas, USA - [June,2025] - PotisEdge, a leading innovator in intelligent energy storage systems, has entered into a strategic partnership with U.S.-based SolarMax Technology and Longfellow ...

IPP Lydian Energy has successfully closed on a US\$233 million project financing for three battery energy storage system (BESS) projects in Texas, US. Energy-Storage.news recently reported ...

Lydian Energy has obtained USD 233 million (EUR 198.8m) in project financing to support three battery energy storage systems (BESS), which are currently under construction in Texas and ...

Renewables developer GSU and the Madagascar Ministry of Hydrocarbons and Energy, have agreed to develop a 50 MW solar plant and a 25 MWh battery storage facility in the city of ...

A global developer of grid-scale energy storage projects said it has closed project financing and completed a 10-year offtake agreement for a battery energy storage system (BESS) installation in ...

With a total capacity of 225 MWh, this storage is made of 114 high-tech Energy Storage Systems (ESS) containers designed and assembled by TotalEnergies' affiliate Saft, which develops cutting-edge industrial batteries.

UAE's Global South Utilities (GSU) will develop a 50-MW solar farm, coupled with 25 MWh of battery energy storage capacity, in Madagascar, as part of a broader partnership with local ...

Texas is leading the way in battery storage--and it's good news for the ERCOT grid and your electricity bill. Learn how Rhythm supports this shift toward a more reliable, renewable energy ...

OAKLAND, Calif.-- (BUSINESS WIRE)--Primergy Solar, LLC ("Primergy"), a leading developer, owner, and operator of utility-scale solar and energy storage projects, announced it closed ...

Focused on sustainability and innovation, esVolta develops, owns, and operates reliable utility-scale energy storage assets across the entire lifecycle - delivering value for utilities, energy users, and investors.

California's largest electric utility is continuing its push to establish a net-zero energy system by 2040, finalising an offtake agreement for 1.8GWh of battery storage capacity with Aypa Power.

Existing battery projects in California and Texas see upside, while hybrid storage bets in the Midcontinent Independent System Operator (MISO) territory and the Southeast face shrinking margins under the revised tax credit rules.

Madagascar texas energy storage

Solar and wind generated 40.2% of the ERCOT grid's electricity this year through June. When coal plants shut down for unexpected maintenance, solar and wind stepped in, providing about ...

Energy Vault Holdings Inc has announced the successful close of \$18 million in project financing for its flagship Cross Trails BESS Project, reinforcing its expanding "Own & Operate" strategy ...

Lydian Energy lands \$233M in financing for 550 MW/1.1 GWh of Texas storage The Electric Reliability Council of Texas said it expects to have nearly 14,000 MW of storage on its system ...

Last week, Lydian Energy secured \$233 million to build three new lithium-ion battery energy storage projects, totaling 550 megawatts (MW), all set to go online by the end of 2025. This ...

After setting a record for electricity generation earlier this week, the Texas energy grid set a new one for a rapid discharge of energy storage systems to support peak evening consumption on ...
