

# Malawi vflowtech pte ltd

Who is vflowtech?

VFlowTech is a Singapore-based long duration energy storage solutions provider manufacturing low-cost and efficient modular vanadium redox flow batteries. VFlowTech's long-term vision is to drive the world towards energy equity where everyone can access clean energy at affordable pricing.

What are the alternatives to vflow Tech?

Alternatives and possible competitors to VFlow Tech may include Natron Energy, Solar MD, and Rhombus Energy Solutions. VFlow uses its unique IP to build safe, long-lasting, high performing low-cost flow batteries for large scale energy storage application.

When did vflow Tech close?

VFlow Tech closed its last funding round on May 7, 2024 from a Series A round. Who are VFlow Tech's competitors? Alternatives and possible competitors to VFlow Tech may include Natron Energy, Solar MD, and Rhombus Energy Solutions.

Is vflowtech a safe & environmentally friendly battery?

With a 25-year expected lifespan, VFlowTech has one of the safest and most environmentally friendly battery technologies. VFlowTech was incubated in the CleanTech lab of Singapore's Nanyang Technological University, and benefits from unique IP arising from many years of intensive research at the university.

What does an IoT Cloud intern do at vflowtech?

As an IoT Cloud Intern at VFlowTech, you will be working on developing IoT products and solutions for our energy-storage devices and smart grid.

What is VFT - embedded firmware intern?

VFT is a spin-off of the CleanTech lab of Nanyang Technological University (NTU), Singapore, and benefits from unique IP arising from many years of intensive research at NTU. As an Embedded Firmware Intern at VFlowTech, you will be involved in the development of BMS (Battery Management Systems) and EMS (Energy Management Systems).
