Why is Mali launching a 200 MWp solar power plant?

Loading... Mali's President Assimi Goïta has launched a 200 MWp solar power plant project with NovaWind, a Rosatom subsidiary, to address the nation's electricity crisis and promote sustainable energy. The EUR200 million investment aims to supply 10% of Mali's electricity within 12 months.

Why is Mali building a new solar power plant?

As Mali grapples with an ongoing electricity crisis that hampers economic growth, transitional President Assimi Goïta laid the foundation stone for a new 200 MW photovoltaic solar power plant. The Russian company NovaWind, a subsidiary of Rosatom, is constructing the plant, marking a significant step in the country's energy sector.

How much is a solar power plant in Mali worth?

Solar panels. Author: John S. Quarterman. License: Creative Commons, Attribution 2.0 Generic. Construction of a 200-MW solar power plant in Mali was officially launched on Friday, Mali's national broadcaster ORTM reported. The project, worth over USD 200 million (EUR 184m), is a partnership between Mali and Russia.

Which company is constructing a new energy plant in Mali?

The Russian company NovaWind, a subsidiary of Rosatom, is constructing the plant, marking a significant step in the country's energy sector. In recent weeks, Mali's transitional government has intensified efforts to implement this solution nationwide.

What is a Russian nuclear project in Mali?

The project, worth over USD 200 million (EUR 184m), is a partnership between Mali and Russia. It will be built by Russian company Novawind, a division of Rosatom, the Russian nuclear corporation. The plant is located in Sanankoroba in the Koulikoro region of southern Mali and will improve electricity supply in the West African state.

A 93MW solar power plant is set to be built in Mali. This is after the government gave the go-ahead to Phanes Energy Mali-SA, a subsidiary of the Phanes group to develop the plant in Touna in the cercle Bla, Ségou region. The energy firm signed a power purchase agreement (PPA) with the [...]

The company noted that it has also initiated construction works for its 40MW (52MW peak) solar PV plant, which has a 20-year power purchase agreement in place with the national distribution company Kenya Power. Globeleq is working with its partners" IDEA Power and Africa Energy Development Corporation (AEDC). Globeleq holds 90% ownership ...
