Why is Mali launching a 200 MWp solar power plant?

Loading... Mali's President Assimi Goïta has launched a 200 MWp solar power plant project with NovaWind, a Rosatom subsidiary, to address the nation's electricity crisis and promote sustainable energy. The EUR200 million investment aims to supply 10% of Mali's electricity within 12 months.

Why is Mali building a new solar power plant?

As Mali grapples with an ongoing electricity crisis that hampers economic growth, transitional President Assimi Goïta laid the foundation stone for a new 200 MW photovoltaic solar power plant. The Russian company NovaWind, a subsidiary of Rosatom, is constructing the plant, marking a significant step in the country's energy sector.

Which company is constructing a new energy plant in Mali?

The Russian company NovaWind, a subsidiary of Rosatom, is constructing the plant, marking a significant step in the country's energy sector. In recent weeks, Mali's transitional government has intensified efforts to implement this solution nationwide.

What is NovaWind doing in Mali?

About thirty kilometers from the capital, Bamako, this project is part of a government partnership with NovaWind. The company, based in Moscow, recently entered into an agreement with Kyrgyzstan to develop 1,000 MW of renewable energy. NovaWind will invest EUR200 million in the Mali project, expected to be operational in 12 months.

Where is the largest solar power plant in Sub-Saharan Africa?

On May 24, 2024, President Goïta visited Sanankorobain the Kati Cercle to initiate the construction of the largest solar power plant in sub-Saharan Africa, covering 314 hectares. About thirty kilometers from the capital, Bamako, this project is part of a government partnership with NovaWind.
