

Government is positioning the country as the regional hub for Electric Vehicle (EV) manufacturing in West Africa, according to the Minister for Energy and Green Transition, John Abdulai Jinapor.

Bluesun provides innovative, flexible energy storage solutions tailored to the renewable sector. Our BESS containers deliver reliable, scalable power storage, meeting diverse energy needs with sustainable, high ...

On July 4, President Trump signed the "One Big Beautiful Bill." The bill makes steep cuts to solar energy and places new restrictions on energy tax credits that will slow the deployment of ...

The Commission said companies, including Huawei and others, whose advanced technologies and smart energy solutions were contributing immensely to Ghana's transition to green energy ...

The 500Ah+ large energy storage battery cell technology is rapidly emerging, demanding significantly higher efficiency from thermal management systems. Liquid cooling plate design ...

Renewable energy storage specialist Apatura said it had received planning consent to build a new grid-scale 560-megawatt battery energy storage system (BESS) near Clydebank in West ...

Strategic licensing agreement aims to cut costs, expand global reach, and challenge lithium-ion's dominance in long-duration energy storage Invinity Energy Systems is doubling down on cost ...

- India is reshaping global mineral supply chains through South-South partnerships, reducing reliance on China for rare earths critical to EVs and renewables. - Strategic deals with Chile, ...

We are here for you to provide the important Recent and Latest Current Affairs 4 July 2025, which have unique updates of Latest Current Affairs 2025 events from all newspapers such as The Hindu, The Economic Times, PIB, Times of India, ...

In a massive scale-up of energy storage. In charging networks - to power the electric vehicle revolution. 9 And in energy efficiency and electrification -- across buildings, transport and ...

In the face of volatile energy pricing and grid instability, energy solutions specialist Aggreko is highlighting the potential for battery energy storage systems (BESS) and battery hybrids to help increase resilience and on-site efficiency. At ...

Energy storage and all other types of power projects (i.e., other than solar and wind) have until the end of 2033 to start construction to qualify for technology-neutral tax credits at the full rate. ...
