

iii. The Status of Battery Energy Storage in Türkiye Recent policy reforms, regulatory advancements, and targeted investment incentives have positioned Türkiye's battery energy storage systems (" BESS ") market as a high ...

By promoting sustainable manufacturing, this work paves the way for greener energy storage, with future potential in AI-driven material discovery and eco-conscious production methods. ...

Mobarakeh Steel Company, now one of the largest industrial units in Iran, was constructed in an area of 35 square kilometers near the city of Mobarakeh and 75 km to the southwest of Isfahan. Construction operations ...

With timely planning for uninterrupted power supply, Arfa Iron & Steel Company has managed to run its direct reduction unit at full capacity, producing sponge iron despite a 90% ...

On July 4, 2025, President Trump signed into law the One, Big, Beautiful Bill Act. The Act includes significant amendments to tax credits originally enacted and/or amended under the Inflation ...

In the face of volatile energy pricing and grid instability, energy solutions specialist Aggreko is highlighting the potential for battery energy storage systems (BESS) and battery hybrids to ...

Energy storage and all other types of power projects (i.e., other than solar and wind) have until the end of 2033 to start construction to qualify for technology-neutral tax credits at the full rate. ...

As such, Japan is well-positioned to encourage Iran to remain a member of the NPT and promote the peaceful use of nuclear energy in cooperation with the IAEA. Looking ahead, the next critical challenge is pursuing the establishment ...

On July 4, 2025, President Trump signed into law the One Big Beautiful Bill Act (H.R. 1 119th Congress) (OBBBA), which significantly changes the clean energy tax credit landscape established by the Biden administration pursuant to the ...

Following its approval by Congress, the One Big Beautiful Bill Act was signed by President Donald Trump on July 4, 2025. This Holland & Knight alert summarizes certain key proposals in the ...

On July 4, 2025, President Trump signed into law the One Big Beautiful Bill Act (the OBBB), which significantly rolls back many of the core tax incentives that clean energy projects have relied ...

Manufacturing energy storage iran

On Thursday, Iran marked a significant step in its renewable energy journey with the inauguration of the country's largest solar power plant developed by Mobarakeh Steel Group in Isfahan. The...

The 500Ah+ large energy storage battery cell technology is rapidly emerging, demanding significantly higher efficiency from thermal management systems. Liquid cooling plate design ...

In the face of volatile energy pricing and grid instability, energy solutions specialist Aggreko is highlighting the potential for battery energy storage systems (BESS) and battery hybrids to help increase resilience and on-site efficiency. At ...

The Clean Electricity Investment Tax Credit under Section 48E of the Internal Revenue Code (IRC) represents a pivotal incentive for advancing zero-emission electricity generation and ...

Energy Storage Solutions for Manufacturing Facilities In the industrial landscape, the quest for operational efficiency has become more essential than ever. Operations Directors in industrial ...
