erning the energy sector in Somalia. The provisions cover areas such as: rural electrification, off-grid en-ergy, licensing requirements for the energy sector; energy efficiency and conservation activities; and electricity generation, supply and distribution activi-ties. Somalia also has a draft National Energy Policy 2020.

Sahal Solar Solutions is a prominent player in Somalia"s renewable energy sector, with a specific focus on off-grid solar solutions. Catering primarily to areas where the national grid is either unavailable or unreliable, they offer a range of solar energy systems designed to provide independent, sustainable power sources.

So, reducing energy consumption can inevitably help to reduce emissions. However, some energy consumption is essential to human wellbeing and rising living standards. Energy intensity can therefore be a useful metric to monitor. Energy intensity measures the amount of energy consumed per unit of gross domestic product.
