

Mayotte energy plus company

What is the energy sector like in Mayotte?

The energy sector in Mayotte is mainly oriented towards the consumption of electricity based on fossil fuels; renewable energies are currently underdeveloped for the moment, and there is no export of fossil fuels. Electricity in Mayotte in 2015 was 95% thermal sources and 5% renewable energy.

Is Mayotte a good place to get electricity?

Electricity in Mayotte in 2015 was 95% thermal sources and 5% renewable energy. The multi-year energy program sets a target of 30% renewable energies in final consumption in 2020. Electricity needs are growing strongly due to the growth of Mayotte and its population, as well as the increase in electricity.

Does energy plus offer cash back?

When you sign up with Energy Plus, you'll be with a supplier that offers you Cash Back for your everyday energy use. You'll be earning rewards while still receiving the same delivery service from your local utility company.

Mayotte is no doubt the French overseas territory facing the most challenging energy transition. It has the highest cost of electric power generation, at nearly EUR350/MWh in 2021, and the most carbon-intensive production, with fossil fuels accounting for over 95%. And consumption is rising sharply each year.
