

Mft energy Dominica

What is MFT energy's business model?

MFT Energy's business model is based on generating income from buying and selling power, gas and environmental products, utilizing the volatility as best as possible. Our 2023-2024 growth strategy aims at capturing opportunities in existing markets, expanding into new geographies, and entering a new and related trading segment, environmental products.

What makes MFT energy a good company?

MFT Energy is committed to conducting all business in an honest and ethical manner, wherever we operate. We are also heavily focused on mitigating potential governance risks that could impact MFT Energy's long-term sustainability and success.

What is the MFT Energy Graduate Program?

The MFT Energy Graduate Program is a 2 year learning journey where you will gain an in-depth understanding of our company and the energy market. During the Program, we aim to grow and develop talented specialists.

Does MFT Energy support the EU taxonomy?

Again in 2023, MFT Energy assessed the EU Taxonomy. While power and gas trading activities have not been explicitly included as separate economic activities in the EU Taxonomy, MFT Energy acknowledges and supports the objectives laid out by this regulatory framework.

What regulations does MFT energy comply with?

MFT Energy's trading activities are primarily subject to European regulations such as REMIT, MAR, and EMIR and subject to certain provisions under MiFID II. These regulations set out rules on market abuse, transaction reporting, and risk mitigation.

Is MFT energy a risk management platform?

MFT Energy is built for all kinds of market sentiments - our trading engine is well prepared on a daily level for handling all market situations - but what we experienced in 2022 was extraordinary and, therefore, we have continuously invested in our risk management setup.

MFT Energy generated impressive growth rates in 2021 and achieved an EBIT of EUR 65.4m (DKK 487m).
