

Australian Gas Light Co. (AGL) has purchased 100% of a public housing virtual power plant (VPP) in South Australia from Tesla, with plans to integrate it with its VPP network on the east coast.

The intelligent modular microgrid market is experiencing robust growth, driven by increasing demand for reliable and resilient power solutions, particularly in remote areas and regions with ...

By connectivity, grid-connected systems led with 62% of the microgrid market share in 2024; off-grid deployments are set to post a 19% CAGR by 2030. By offering, hardware held 63% revenue share in 2024, while ...

Solar-powered microgrids offer a range of benefits and challenges, some of which are discussed below:
Sustainability: One of the main benefits of solar-powered microgrids is that they rely on renewable energy, making them ...

However, ongoing technological advancements, government support through policies and funding initiatives, and increasing awareness of the benefits of microgrid energy storage are expected ...

Los Angeles, USA - Integrated Modular Microgrid Solution market is estimated to reach USD xx Billion by 2024. It is anticipated that the revenue will experience a compound annual growth ...

Large energy users like data centers and manufacturers could gain expedited access to at least 500 MW of solar deemed "ready to proceed" under the new, "more enabling" private wires ...

The mobile microgrid energy storage system market is experiencing robust growth, driven by increasing demand for reliable and sustainable off-grid power solutions. Factors such as the ...

The UK government has rejected a contract-for-difference (CfD) application for the proposed Xlinks interconnector, a 3,800 km submarine cable to deliver power from a planned 10.5 GW ...

Melbourne-based clean tech company CRT has unveiled its C-Cell electrolyzer, saying it has been engineered to address cost, complexity, and efficiency barriers limiting the adoption of ...

A new study from Curtin University in Australia has shown that Australian households are hesitant to adopt home batteries due to significant non-financial barriers, despite growing affordability ...

Supply chain challenges, subsidies and tariff uncertainties are forcing the solar energy industry to find significant cost efficiencies. As older models of installed solar panels become harder to ...
