

PowerFilm Solarmodule gehören zu den hochwertigsten Dünnschicht-Modulen. Die Dünnschicht-Technologie der PowerFilm Solar Charger garantiert nutzbare PV-Erträge auch bei nicht optimalen Lichtverhältnissen. Wir führen die Powerfilm R-Serie und F-Serie.

Just NSN Parts, owned and operated by ASAP Semiconductor, is a leading distributor of Powerfilm Inc Db Powerfilm Solar NSN (National Stock Number) parts, new and obsolete. Because of our dedication to quality, we're the only independent distributor in the United States with a strict No China Sourcing Pledge. We're also an AS9120B, ISO 9001 ...

These thin-film flexible solar panels are the perfect choice for permanent outdoor applications directly exposed to the elements. Menu. Expand search form. Contact Us. Products. Component. ... PowerFilm Solar, Inc. 1287 XE Place . Ames, Iowa 50014. 515-292-7606 515-292-7606

PowerFilm's Indoor Solar Panels are inherently more sensitive than traditional solar technologies in low light and indoor settings. Even in heavily shaded or dimly lit environments, such as warehouses and industrial plants, Indoor Solar Panels can generate enough power to run sensors, beacons, and other low-power devices of the emerging IoT industry.

All PowerFilm and Soltronix solar panel accessories include marine-grade components with connectors that match the complete line of PowerFilm and Soltronix solar panels providing easy "plug and play" capability. Custom ...

PowerFilm can provide the rugged durability needed for outdoor environments or the high performance required for indoor artificial light-harvesting. Agriculture PowerFilm's unique thin-film technology is exceptionally durable, shade tolerant, and lightweight, making it an ideal solution for the harsh outdoor environments seen by devices used ...

PowerFilm can customize many aspects of a solar panel including PV technology, electrical connections (integration of charge controller integration, bare wires, many types of connectors, flexible printed circuit connectors, PCB thru-holes), mounting options (pressure-sensitive adhesives, mechanical fasteners, direct lamination to your surface, front or backside contacts), ...

PowerFilm's Portable Remote Expeditionary Scalable Solar (PRESS) provides 270W using the highest efficiency crystalline cells available. PowerFilm's PRESS provides either a direct, unregulated panel output or a regulated output through an integrated charge controller. Both outputs include blocking diodes, eliminating any reverse current flow.

This is a great solution for boating, camping, or charging a 12V battery from solar in remote areas. Unlike other thin-film solar technologies, PowerFilm solar chargers do not need to be "sun soaked" after storage to produce peak power; you have critical power to moment you need it. Using the R60 rollable solar panel:

When comparing PowerFilm solar panels to others referencing them, here are a few things to look out for: Waterproof: If a product claims to be "waterproof" insure you ask the seller for the published IP rating of the product. The IP or Ingress Protection rating tells us how moisture or dustproof something is, for how long, and for how deep ...

PowerFilm is designed, engineered, and manufactured in the United States, the 60W Foldable Solar Panel from PowerFilm is generous in capability forgiving in cost. Lightweight, durable, and extremely portable, these solar panels are ...

The PowerBoost charge controller, developed specifically for Soltronix: PowerFilm's semi-flexible crystalline (c-Si) (Soltronix branded) and Rollable/Foldable Flexible amorphous silicon (a-Si) panels, efficiently charges and maintains the health of lead-acid, Lithium-Ion, and other rechargeable battery systems.

PowerFilm solar panels are lightweight, durable, can be carried in the rucksack, and recharge batteries reducing the weight and expense of batteries in the field. Our foldable panels range in output from 20W to 220W and 12V to 32V, depending on a soldier or squadron's needs.
