Central battery system (32) Housing. Combined housing (67 ... RP-Technik GmbH's product range includes complete systems for up to 50,000 luminaires, supplied with power either centrally or decentrally. The different systems can be combined with each other, can be optimally customised to individual requirements and most of them are T&#220;V type-tested.

RPOWER&#174; battery cabinets are the perfect place to store your RPOWER&#174; batteries. The ready-to-use cabinets can be flexibly combined for any size of battery system - even when using our BAT-LOGG&#174; battery monitoring.. Good accessibility, well-thought-out details and intelligent ventilation maximise convenience and safety (IP 21 degree of protection) for your battery system.

Emergency lighting by RP-Technik: this means tailor-made solutions and system competence from a single source. From the single-battery luminaire with SelfControl to complete systems with a decentralised or central power supply for up to 50,000 luminaires.

RP-Technik also manufactures a range of central battery systems. In addition to the standard features, there is also available an automatic addressable testing system. RP-Technik entire product range is designed to meet the requirements of the relevant European and international directives and standards. This is proved with certificates from ...

RP-Technik GmbH specializes in battery technology, manufacturing power supply systems with the RPOWER&#174; battery series tailored for emergency power, featuring excellent German engineering. They offer application-specific ...

SOLUTIONS IN SAFETY + LIGHTING | RP-Group - Der Global Player aus Hessen Die RP-Group beschäftigt 300 Mitarbeiter an zwei Produktionsstandorten in Deutschland sowie an weiteren Vertriebsstandorten im In- und Ausland. Über ein weltweites Vertriebsnetz liefert die RP-Group ihre Beleuchtungslösungen und ...

RP-Group supplies high-performance energy storage systems as a modular system with up to 3.45 or 4.6 MWh capacity per Container. Each DC container contains 9 battery clusters, each consisting of 26 battery modules and a monitoring system. The batteries we use are state-of-the-art LiFePO4 cells, which have an extraordinarily long life expectancy

Emergency power supply with output voltage: 230V / AC by an inverter. 2-wire-system up to max. 500 m distance. Single and double supply luminaire with the available illuminants: fluorescent lamps, halogen lamps and LED at 100% luminous flux. Technical specifications according to DIN EN 60598-2-22. ...

The multiControl plus system is a universally applicable, central power supply system according to EN 50171, which can be equipped with up to 96 freely programmable circuits in a service-friendly 19" assembly group system. ...

Doors, windows, partition walls - in case of high protection requirements, rp hermetic is the go-to steel system for attractively designed spot-on solutions. rp tecline. Filigree mullion-transom facades made of steel with face widths of 40, 50 or 60 mm. ... The extension of the Munich Central Library, realized by meck architekten, was the ...
