What is Moxion Power?

Moxion Power is a manufacturer of commercial-scale electric generators and provides temporary-power-as-a-service to customers in the construction, events and entertainment, data center, and electrified transportation industries. Moxion Power has the same dimensions, run-times,...

Is Moxion Power a Y Combinator?

Catch up quick: Moxion Power, based in Richmond, Calif., was founded in 2020 and went through the Y Combinator program in 2021. The company makes a battery-powered generator that's meant to replace diesel generators for off-grid operations, like on construction sites or film sets.

Will Moxion Power shut down?

Startup Moxion Power, which makes a battery-powered generator, has furloughed most of its staff and could soon shut down, according to a report from SFGate. Why it matters: The chilly funding environment continues to catch up with capital-intensive climate tech startups seeking to scale. Moxion Power didn't respond to a request for comment.

Was Moxion Power trying to raise funding?

The report, citing a WARN notice, said that Moxion had been trying to raise funding, but financing talks had fallen through last week. Flashback: Bloomberg reported in February that Moxion was seeking to raise a \$200 million equity round at a near \$1.5 billion valuation.

Moxion Power, a battery manufacturer based in Richmond, suddenly furloughed almost its entire staff on Friday and warned workers that it will likely shut down. In an internal Zoom call and a WARN ...
