Northvolt has kicked off the construction of Northvolt Labs. Once completed in 2019, the cutting edge scale-up and research facility will be used to develop, test and industrialize lithium-ion battery cells before large-scale production.

Northvolt Ett, the company's flagship battery gigafactory in Skellefteå, Sweden, and Northvolt Labs in Västerås, Sweden will remain operational as Northvolt ramps up production to meet ...

Shauna McIntyre, CEO of Cuberg, commented: "Northvolt Labs is a world-class battery R& D campus, that provides not only a natural home for lithium-metal but an excellent platform from which to assure the further development of lithium-metal technology. The move strengthens Northvolt's long-term commitment to advanced battery development and ...

Northvolt's second Sustainability and Annual Report details our approach, progress and impact on the path to building a sustainable battery industry. ... The sodium-ion program is now being pursued at Northvolt Labs, in Västerås, into which our investment has enabled expansion in capabilities, including via a new R& D facility brought online ...

Northvolt Ett, the battery maker's flagship gigafactory in Skellefteå, Sweden, and Northvolt Labs in Västerås, Sweden will remain operational during the restructuring process.

Northvolt Labs, which in addition to the demonstration line also will include a research facility, will be used to qualify and industrialize products and processes together with Northvolt's partners and customers. The launch of Northvolt Labs is a key step towards the establishment of Northvolt's large-scale lithium-ion battery factory in ...

We are Northvolt In 2017, we announced a bold and simple plan: to enable the future of energy by developing the world's greenest battery cell and establish a European supply of batteries. Our mission is to build the world's greenest battery, with minimal carbon footprint and the highest ambitions for recycling Our vision is to accelerate ...

Northvolt has kicked off the construction of Northvolt Labs. Once completed in 2019, the cutting edge scale-up and research facility will be used to develop, test and industrialize lithium-ion battery cells before large-scale ...

Labhouse, built in partnership with Castellum, will provide office space for 900 Northvolt employees. The building will be fully equipped with meeting rooms, a co-working hub, an auditorium and a showroom.

Thanks to a \$100 million bridge loan, Northvolt Ett, the Gigafactory in northern Sweden, and Northvolt Labs, will continue operating as usual throughout the bankruptcy process. Not so long ago, Northvolt was the poster child of Europe's EV battery drive. The company, which produces lithium-ion, sodium-ion and lithium-metal battery cells ...

Northvolt Labs?????????,Northvolt????????????????????,????????????????????

Om Northvolt Labs AB . Northvolt makes green batteries for a blue planet. Affordable cells and high-quality battery systems. All manufactured with a record-low carbon footprint. Purposely built to provide Europe with the opportunity to switch to renewable energy - efficiently and entirely.

By embracing this new frontier within the field of batteries, Northvolt is set to accelerate innovation and provide foundations for a new era of battery research, design and manufacturing. Pioneering a new battery industry - enabled by machine learning ... Northvolt Labs in V&#228;ster&#229;s, Sweden, the team will join top-tier talent dedicated to ...

Going forward, Northvolt Labs will be ramping up production of battery cells and delivering cells to key customers through 2020. As the facility establishes its foothold, it will be play host to the cutting edge of European electrification technology stakeholders. At the same time, the area immediately surrounding Northvolt Labs is pitched to ...

"The development of Northvolt Labs into a comprehensive ecosystem serving the full battery value chain is a massive step up in terms of our being able to develop the battery solutions Europe needs. "There is a clear advantage in play for Northvolt Systems - previously, Northvolt Labs was focused on cell industrialisation and battery ...
