I returned to the Bukoto Art Group on behalf of the Xsabo Group in January 2017 which had decided to provide financial support to art groups, youths and women in selected areas. Soon I learnt that many girls in Uganda miss school during their menstrual period due to the lack of sanitary pads. I thought I could do something about it.

The project is developed and owned by GL Africa Energy and Xsabo Group. The owners have 50% stake in the project respectively. Kabulasoke Solar PV Park is a ground-mounted solar project which is spread over an area of 130 acres. The electricity generated from the plant has offsetted 21,000t of carbon dioxide emissions (CO₂) a year.

To help diversify the national energy pool for Uganda, The Xsabo Group is developing five solar parks in various locations within the country, with total generation capacity of 150 MW (200,000 hp). The Kabulasoke solar power plant is the first to be developed by the company, thus the name "Pilot Solar Power Park Kabulasoke" as stated in its ...

Ugandan developer Xsabo Group has launched construction of a 25MW solar park at Kabulasoke in the central district of Gomba. Vice-president Edward Ssekandi laid the first of the 68,000 modules in a ceremony on 3 October.
