You will need to complete a new storage agreement for the new unit. What happens if my goods won't fit? All centres have a wide range of sizes, so if you have more stuff ...

Hydropower provides about 60% of New Zealand's electricity in a normal year. However, the geographical proximity of the main South Island stations means the power supply is vulnerable to regional low-rainfall years - the "dry year" issue. This vulnerability arises because New Zealand has limited hydro storage capacity.
