

New delhi utility-scale solar

Bluebird Solar is a part of the renowned Bluebird Group (Est. 1979), with over 45 years of excellence, widely known for its legacy of quality and innovation in electrical manufacturing. Headquartered in Delhi, Bluebird Solar specializes in ...

Utility-scale energy storage refers to large-capacity systems designed to store electricity and discharge it into the grid when needed. Unlike small home batteries or those in electric ...

SAEL Industries will invest around INR 82 billion to set up a 5 GW integrated solar cell and module manufacturing facility in Greater Noida, Uttar Pradesh. The facility will produce tunnel ...

Many utility-scale solar cell manufacturers now assign technical teams to EPC contractors. It helps with module layout, string planning, and logistics. For Consumers (Homeowners/B2C) ...

The Delhi Government has notified the first amendment to the Delhi Solar Energy Policy 2023, increasing the state capital subsidy for residential rooftop solar systems. The revised subsidy ...

The decade belongs to distributed solar India's path to net zero by 2070 cannot rely solely on large-scale infrastructure. The country's energy future will be shaped just as much by the ...

The Delhi government is drafting a visionary plan to install solar panels atop the Munak Canal's 17 km Delhi stretch, aiming to significantly reduce water losses, generate renewable energy, and ...

Delhi Accelerates Rooftop Solar Growth Amid Rising Energy Demands, New Delhi sees rapid growth in rooftop solar with 10,000 installations, aided by subsidies, net metering, and rising ...

The emirate of Sharjah has commissioned its first utility-scale solar plant to power the Sajaa Gas Complex and export surplus electricity to the grid. The 60 MWp SANA facility, developed in ...

The rapid expansion of utility-scale solar installations, particularly in countries like India, China, and Australia, is one of the primary drivers of the Asia Pacific solar tracker market.

As the sun rises over the Mekong and the subcontinent, a new energy alliance dawns--one fueled not by coal or oil, but by collaboration, innovation, and clean power. India and Cambodia, two nations at different stages of industrial growth ...

President Donald Trump's "Big Beautiful Bill" takes aim at renewables broadly, including phasing out tax credits enjoyed by utility-scale solar and wind. But cutting the residential solar credit ...

New delhi utility-scale solar

The Delhi Government has notified the first amendment to its Delhi Solar Energy Policy 2023, raising the subsidy for residential rooftop solar installations. The amended state capital ...

Oregon is going forward with the largest solar-plus-storage project in the US, a significant stride toward renewable energy infrastructure. The Sunstone Solar project in Morrow County in north-eastern Oregon will integrate large-scale ...

NTPC Vidyut Vyapar Nigam issued a tender to empanel engineering, procurement, and construction contractors for developing rooftop and ground-mounted solar projects of up to 20 ...

Explore how Avaada is shaping India's clean energy future with utility-scale Battery Energy Storage Systems (BESS), including a landmark 2.1 GW project to support a sustainable and ...

Lead the execution and commissioning of utility-scale solar and wind projects across various locations. Oversee daily project operations, ensuring adherence to timelines, budgets, quality ...

JMK analysts expect the nation to commission about 21.2 GW of new utility-scale solar projects and 7.2 GW of rooftop/onsite solar projects for the next year FY 2026. As of March 31, 2025, ...
