Who is NextEra Energy Canada?

NextEra Energy Canada, LP stands out as a leader in producing electricity from clean and renewable resources and is among the Canada's most disciplined competitive power generators. Our company derives 100% of its electricity from generating facilities using clean or renewable fuels, such as the wind, and operates across Canada.

What subsidiaries does NextEra Energy have?

Its subsidiaries include Florida Power & Light (FPL), NextEra Energy Resources (NEER), NextEra Energy Partners, Gulf Power Company, and NextEra Energy Services.

What type of energy does NextEra Energy use?

In addition to wind and solar, NextEra Energy Resources owns and operates generating plants powered by natural gas, nuclear energy, and oil. As of 2020, approximately 41% of NextEra Energy's generating capacity was from fossil fuels and non-renewables.

What makes NextEra a successful company?

Our company derives 100% of its electricity from generating facilities using clean or renewable fuels, such as the wind, and operates across Canada. Our success reflects the solid business practices of our parent company, NextEra Energy Resources, LLC, North America's largest generator of renewable energy from the wind and sun.

What happened to NextEra Energy & Entergy?

The acquisition, which expanded NextEra Energy's combined residential customer base in Florida to approximately 51 percent of the state's population and also included Florida City Gas, was completed on January 1, 2019. In 2018, NextEra Energy and Entergy left the Nuclear Energy Institute.

How many states does NextEra Energy operate in?

In addition to operational assets shown in the map below, NextEra Energy's presence extends to 49 states and four Canadian provinces. Battery Storage | Universal Solar | Wind | Natural Gas | Nuclear | Other | Transmission | Pipeline | State with Operational Projects NextEra Energy portfolio map: Orange squares indicate battery energy storage.
