

Nicaragua drt power systems

What is the electricity system in Nicaragua?

The Nicaraguan electricity system comprises the National Interconnected System (SIN), which covers more than 90% of the territory where the population of the country lives (the entire Pacific, Central and North zone of the country). The remaining regions are covered by small isolated generation systems.

Who is responsible for transmission in Nicaragua?

In Nicaragua, 100% of the transmission is handled by ENATREL, which is also in charge of the system's dispatch. In Nicaragua, the company Dissur-Disnorte, owned by the Spanish Union Fenosa, controls 95% of the distribution. Other companies with minor contributions are Bluefields, Wiwil; and ATDER-BL.

Is there a wind power project in Nicaragua?

In December 2005, two wind-related technical cooperation activities were approved, one for the Development of Wind Power Generation in Isolated Systems and another one for a Wind Power Park Feasibility Study in Corn Island. The World Bank has currently one Off-grid Rural Electrification (PERZA) project under implementation in Nicaragua.

Does Nicaragua need a new generation power plant?

Maximum demand has increased in Nicaragua at an annual rate of about 4% since 2001, which has led to a low reserve margin (6% in 2006). Furthermore, demand is expected to increase by 6% per year for the next 10 years, which increases the need for new generation capacity.

What percentage of Nicaragua's electricity is produced by hydroelectric plants?

Currently, hydroelectric plants account only for 10% of the electricity produced in Nicaragua. The public company Hidrogesa owns and operates the two existing plants (Centroamérica and Santa Bárbara).

What are the problems faced by the electricity sector in Nicaragua?

This is one of the most acute problems faced by the sector in Nicaragua, as it leads to very large economic losses. This problem is partially caused by the widespread existence of illegal connections, altered metering systems and low bill collection capacity in certain areas. The regulatory entities for the electricity sector in Nicaragua are:
