

Google enters long-duration energy storage (LDES) with a global commercial partnership and investment in Energy Dome. Energy Dome's CO2 Battery stores clean energy for 8-24 hours, ...

Energy Storage Solutions for Manufacturing Facilities In the industrial landscape, the quest for operational efficiency has become more essential than ever. Operations Directors in industrial ...

Energy storage technology has advanced by leaps and bounds in recent years, offering a range of benefits for manufacturing facilities. From reducing energy costs and improving grid stability to ...

In the face of volatile energy pricing and grid instability, energy solutions specialist Aggreko is highlighting the potential for battery energy storage systems (BESS) and battery hybrids to ...

As an innovative benchmark project integrating "commercial & industrial energy storage + intelligent manufacturing," TCL Photovoltaic Technology adopts advanced battery technology ...

On July 4, 2025, President Trump signed into law the One Big Beautiful Bill Act (the OBBB), which significantly rolls back many of the core tax incentives that clean energy projects have relied ...

ETC specializes in thermal storage, energetic efficiency, industrial wastes recovery high valuation and advanced materials characterization. Making 24/7 renewables a reality through Thermal Energy Storage. Harvest Thermal ...

The visit focused on XIHO Energy's core product line: the main product customized battery pack covers multi-specification integrated systems such as home energy storage and industrial and ...

LG Energy Solution reported a rise in its second-quarter profits despite a forecasted slowdown in electric vehicle (EV) demand expected by the first half of 2026. The company has indicated ...

Explore how ACE Battery leads in sustainable energy storage with green manufacturing, global certifications, and customized ESS built for long-term impact. As the global demand for clean ...

According to a latest report from market intelligence firm Clean Energy Associates (CEA), the U.S. energy storage system (ESS) battery manufacturing capacity is facing severe challenges. As ...

OLADE's technical note 10, entitled "Energy Storage in Latin America and the Caribbean - Current Status, Challenges and Strategic Recommendations" reports 2.5 GW of installed capacity in the region. Energy storage installations are ...

Nicaragua manufacturing energy storage

Puma Energy Nicaragua lanzó oficialmente CLEANTEC, su nueva tecnología de aditivos para gasolinas, marcando un hito en la industria energética del país. Desde el 15 de julio de 2025, ...

In the face of volatile energy pricing and grid instability, energy solutions specialist Aggreko is highlighting the potential for battery energy storage systems (BESS) and battery hybrids to help increase resilience and on-site efficiency. At ...

CLEANTEC actúa en tres áreas clave: Limpieza: elimina residuos acumulados en el sistema de inyección. Protección: reduce el desgaste de componentes internos. Optimización: mejora la ...

On July 4, President Trump signed the "One Big Beautiful Bill." The bill makes steep cuts to solar energy and places new restrictions on energy tax credits that will slow the deployment of ...

Integrate energy transition strategies with core business operations. Understand how to manage large-scale energy transition projects. Explore emerging technologies in energy transition ...

Energy storage and all other types of power projects (i.e., other than solar and wind) have until the end of 2033 to start construction to qualify for technology-neutral tax credits at the full rate. ...

On July 4, 2025, President Trump signed into law the One Big Beautiful Bill Act (H.R. 1 119th Congress) (OBBBA), which significantly changes the clean energy tax credit landscape established by the Biden administration pursuant to the ...
