Niger Delta Energy Day | 117 followers on LinkedIn. Driving sustainable energy development in the Niger Delta region. | The Niger Delta, often symbolized as the "heart" of Nigeria's oil and gas industry, paradoxically grapples with profound energy challenges that cast a significant impact on its communities. Despite standing as the primary source of the nation's crude oil and ...

Moreover, Modern Energy LLC offers customers a full range of services on solar power plant installation for residential sector, utility scale projects, commercial solar power plants for business to cover their own energy consumption. We take care of each client and offer flexible solutions to meet specific needs and budget.

Niger has one of the lowest electrification rates in sub-Saharan Africa. Only one in seven Nigeriens have access to modern electricity services, and just four percent of rural residents have access through the national utility.

Final energy consumption in Niger is estimated at 0.15 toe per capita, one of the lowest in the world. The weakness of this value is mainly due to limited access of Niger's households to modern energy. ENERGY CONSUMPTION DOMINATED BY BIOMASS Indeed, over 90% of Niger's households use wood as fuel for cooking. Access to modern cooking fuels and
