Beacon range of inverter and Solar flooded batteries are one of the best batteries available out there. Entire battery is made in house with highest level of quality to withstand long duration of power-cuts and other solar offgrid applications.

If the off grid systems is designed with appropriate solar panels and battery, it can supply power throughout the year without ever relying on the grid power. We use inverters and batteries that are manufactured under the Beacon stable so appropriate protection and timely service can be given to the needed parties. For Further Details Download

The Government of Niue extends its sincere thanks to the staff of NPC, who have had to respond to outages at all hours of the night and have kept aging infrastructure in service with limited resources for over 10 years.

This represents the culmination of years of work from Niue Power Corporation (NPC) staff, local and overseas contractors, and our development partners. Australia and New Zealand funding assistance in particular has been instrumental in the procurement of new generators, transformers, switchboard and construction of a new building to house these.

At Beacon Power we are committed to providing utilities and system operators the best flywheel-based energy storage resources to help maintain a reliable, cost-effective and stable power grid. Beacon Power is the global leader in the development and commercialization of fast response flywheel-based energy storage systems, offering proven ...

Mel Campbell is a Specialist Paediatric Occupational Therapist at Beacon House. She combines her interests of the body and mind, with her knowledge of the sensory systems to help children with developmental trauma feel safe in their bodies. Through the lens of sensory, attachment and regulation, Mel supports children and their families to come together through play and fun.

Reflecting on recent years, Minister Tatui noted that Niue has invested approximately \$8 million to enhance its power system, with ongoing investments, including a \$20 million commitment from New Zealand's Ministry of Foreign Affairs and Trade (MFAT) for the Renewable Energy Project, AREAN Project contributions, and support from the Asian ...
