Does anyone know if you can limit power output on the HESP or ASP units (ie limit the 10kw unit to 8kw output)? On my Growatt this is the "Active Power" setting. Didn't see anything like that in the manual. Don't think much price difference between 8kw ASP and 10kw. Would rather run the 10kw less hard. I want to do 6x ASP for 240v 200A.
